## Quarantined! (And Loving Every Minute!)

I pray that you and your family are safe during these tumultuous times. What an eerie feeling it has been with the things of this world on hold. On the positive front, I cannot be more blessed to be quarantined with my family! What great times we have shared. We are now experts in Uno, dominoes, darts and shuffleboard. The baseboards have been cleaned and the house is shining. While I am still working in the day, I am comforted to know my family is safe and secure with my lovely bride at home. Here are some action shots this past week:

ELLA REALLY KNOWS SHE IS A PRINCESS!

WE'VE ALL BEEN BENEFITTING FROM ZOE'S EXTRA TIME IN THE KITCHEN!

DADDY AND MOMMY MAKING SOME MUSIC AND LOVING IT!

PLAYING GUITAR WITH MY SON, CASE.

We will get through these times hopefully without serious illness or loss of life. How do you want to remember these precious days? I plan on looking back at these times and being thankful for this specific trail of life's journey. Did we use it to love our family more closely? Did we make some memories? What is our legacy we leave to our loved ones? Did we help our neighbors in need? Or did we just fend for ourselves and haul all the toilet paper we could shove in our SUV?

IGBOK. I wish you all peace and love.

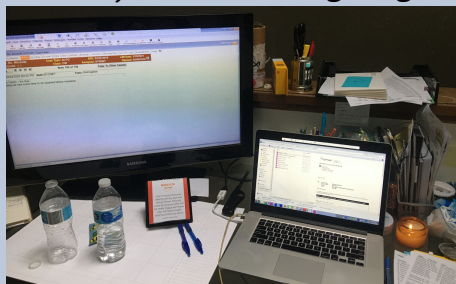

*The Lord is my light and my salvation -- whom shall I fear? The Lord is the stronghold of my life -- of whom shall I be afraid? Psalm 27:1*

Can you guess whose office is whose?

## YOUR TURN

**Ryan B.**  
Nashville, TN

Josh and Nathan were more than hardworking and dedicated to my case, a stressful situation turned into a smooth-sailing one with their guidance. I had trouble finding or even getting ahold of other lawyers while I was looking around, but after seeing their professional website I was very impressed. I submitted an online form and was contacted in less than a day. Josh was very caring and sympathetic when talking to me for the first time which made an excellent first impression. From there Josh wanted to meet me halfway to save me the long commute and he even bought breakfast for me while discussing my case!! From there he instantly started to dig deep into the cracks of my case, got everything organized and well prepared in a fast, timely manner. I was so impressed how fast it took for them to take care of things. Throughout the whole process, Josh and Nathan both kept in close contact with me via email and phone calls which I love, because there is nothing more important than communication! And anytime I had a question, they were quick to respond with a well thought out, detailed answer. I was bummed out at first that Bart Durham didn't take my case while I was looking for lawyers, but now I'm more than happy and grateful that happened, because Griffith Lawyers are the best at what they do!! Would hands down recommend over any law firm around. They even sent me a gift card, and what lawyer around here will do that? With such an amazing experience they have given me, I could never be more grateful and appreciative of these guys. Thanks so much for everything Josh and Nathan!! You turned a bad situation into a great one.

# PAYING MEDICAL BILLS AFTER YOUR WRECK

The  
Right  
Way!

You were minding your own business that day when... WHAM. Your whole world just got knocked sideways when some other driver was not paying attention. You and your family are probably lucky to be alive. Now that you are on the mend, you must address the mounting bills that you have incurred. While you are working on your physical recovery, there are some things you must consider now in order to work on your financial recovery. If you just sit back and do nothing, you will have a mounting problem that is simply not going to disappear.

There are some things you must think about now and act on that could save you and your family literally tens of thousands of dollars. What are your options, and what should you do to get this taken care of? I am going to take you through your decision making, step by step, and guide you to the best possible path of recovery.

## WHAT ARE MY OPTIONS?

When you come and sit down with me as your lawyer to talk about your case, here are the 3 main questions I am going to ask you about that you need to know (or I can help you find out about):

**Do you have personal health insurance?**

**Do you have Medical Payments coverage as a part of YOUR car insurance policy?**

**How much Uninsured/Underinsured Motorist Coverage do you have on YOUR car insurance policy?**

I am asking these questions to see which options we have.

- Most of the time, these are the available options:
- Personal health insurance/Medicare/ TennCare
- Medical Payments Coverage on your personal auto (or the car you were riding in)
- Liability Coverage covering the car that hit you
